CHASING AC POWER SUPPLY

Accessory specially designed for use with
CHASING M2 and **CHASING M2 PRO ROV.**

www.chasing.com

CHASING AC POWER SUPPLY is specially designed for use with the Gladius series ROVs of CHASING M2 and CHASING M2 PRO . Paired with the CHASING high-brightness screen control console or CHASING adapter box, the ROV supports various power supply via AC current or battery, allowing extended operating time. CHASING AC Direct Power Supply System outputs power at 250W. Its reel is equipped with a pull rod and scroll wheel that are easy to use and convenient to assemble and disassemble. 100 and 200 meter cables provide long-distance power supply.

Continuous power supply, long-lasting operation

CHASING AC Direct Power Supply System can be used with the CHASING high-brightness screen control console or CHASING adapter box to power and recharge the ROV during use, allowing the ROV to operate continuously.

* When the working power of ROV is less than 250W, it can be supplied unlimited power by AC Power Supply System.
