# CHASING Auxiliary Camera

Accessory specially designed for use with  
**CHASING M2 PRO ROV.**

[www.chasing.com](http://www.chasing.com)

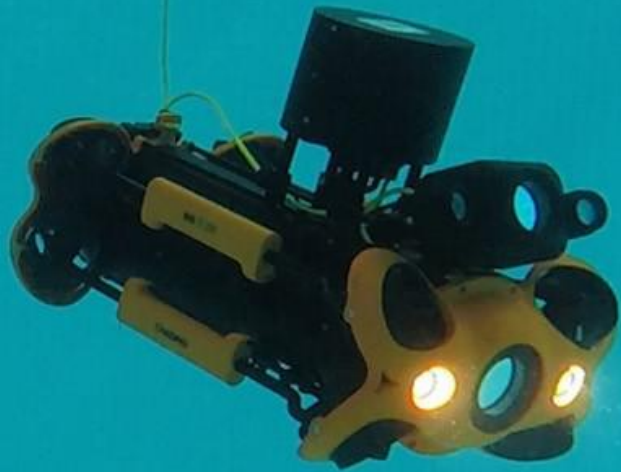

**CHASING Auxiliary Camera** is specially designed for use with CHASING M2 PRO ROV via the docking station. Used with CHASING GO1 App, it allows users to engage in real-time viewing and shooting via their mobile device, and supports both photography and video functions. It can be used at the same time as the ROV's camera to provide a second angle for the ROV. It features a 1080p F/1.6 aperture and 2\*1200 lumens fill light; it uses a 1/2.8 inch CMOS depth sensor and 2 megapixels.

# Multi-angle Synchronous Viewing

CHASING Auxiliary Camera fits onto ACHASING M2 PRO ROV, allowing it to be simultaneously used with the ROV camera via the docking station, providing a second angle for the ROV.

The App enables users to view and capture video and images in real time.

# Combine Angles in a Variety of Ways

CHASING Auxiliary Camera can be adjusted within an angle of 0-90 degrees, and can be freely fitted onto the top or bottom of the ROV, allowing the shooting angle to be adjusted in a variety of ways.
